```

When to merge at table to itself

Common situations:

- Hierarchical relationships
- Sequential relationships
- Graph data

Let's practice!

JOINING DATA WITH PANDAS

Merging on indexes

JOINING DATA WITH PANDAS

Aaren Stubberfield Instructor

Table with an index

```
title
  id
                          popularity
                                      release_date
        Oliver Twist
0 257
                          20.415572
                                      2005-09-23
        Better Luck ...
1 14290
                         3.877036
                                      2002-01-12
2 38365
        Grown Ups
                          38.864027
                                      2010-06-24
